Prints do Workflow

Tela de login

Tela de Cadastro

Element Event
Button Confirm is clicked

Step 1
Reset password

Step 2
Go to page index

Funcionalidade do botão para confirmar a troca de senha:

Step 1 - Essa funcionalidade reset senha do usuário para a nova que o mesmo colocou e confirmou depois.

Step 2 - Após isso direciona o usuário para a tela de login onde ele usa a nova senha dele para entrar no sistema.

Tela de Resetar a senha

Element Event
Button Go Home is clicked

Step 1
Go to page dashboard

Função: Redireciona o usuário de volta para a página principal do sistema.

Step 1 - Navega para a página dashboard.

Tela de erro (404)

Element Event
Button go-to-clientes-btn is clicked

Step 1
Go to page clientes

Event - Button go-to-clientes-btn is clicked
Last updated Apr 25, 2026 by sumenta25@gmail.com

Função: Navega para a página de gestão de clientes.

Step 1 - Redireciona o usuário para a página 'clientes'.

Tela da DashBoard

Element Event
Button go-to-orcamentos-btn is clicked

Step 1
Go to page orcamentos

Event - Button go-to-orcamentos-btn is clicked
Last updated Apr 25, 2026 by sumenta25@gmail.com

Função: Navega para a página de gestão de orçamentos.

Step 1 - Redireciona o usuário para a página 'orcamentos'.

Tela da DashBoard

Element Event
filter-categoria-select's value is changed

Step 1
Display list in RepeatingGroup produtos-table-grid

Event - filter-categoria-select value changed
Last updated Apr 26, 2026 by sumenta25@gmail.com

Função: Filtra a lista de produtos com base na categoria selecionada no dropdown.

Quando o usuário muda a opção do dropdown de filtro.

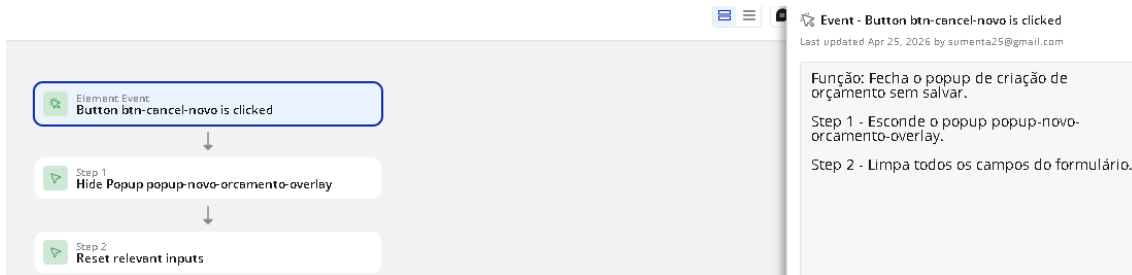

Step 1 - Display list in RepeatingGroup produtos-table-grid

- O que faz: Atualiza a lista de produtos na tela
- Elemento: RepeatingGroup produtos-table-grid
- Data source: Search for Produtos (category = filter-categoria-select's value)

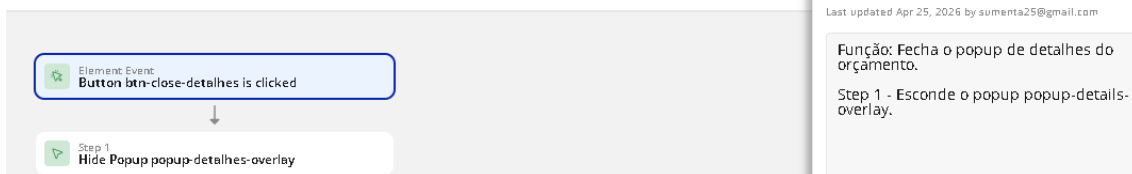

Comportamento:

- Ao selecionar uma categoria, mostra apenas produtos daquela categoria
- Se o dropdown estiver vazio ou com "Todas", mostra todos os produtos
